

# The tempo of success

Arianespace has scheduled six Ariane 5 missions this year

## CADENCE

Another Ariane 5 is taking shape in Kourou to support Arianespace's sustained launch pace in 2007. The mission rate for our heavy-lift workhorse is accelerating to eight flights per year in 2009. This robust launch cadence will meet our growing backlog - which now stands at a record 44 satellites to be orbited.
