

The tempo of success

Ariane 5's cryogenic core stage is readied for the next dual-payload mission

CADENCE

Preparations are underway for Arianespace's fifth Ariane 5 heavy-lift mission of 2006, which is to carry the WildBlue-1 and AMC-18 spacecraft. So far this year, Ariane 5s have delivered eight satellites into highly accurate geostationary transfer orbit, lofting a combined weight of more than 31,670 kg.

The logo features a blue sphere with a white orbital path and a grey arrow pointing clockwise. The word "arianespace" is written in white lowercase letters across the sphere.
