

# The tempo of success

Intelsat 11 will be orbited on an Ariane 5 dual payload mission from Europe's Spaceport

CONFERENCE

Arianespace's next mission will orbit another spacecraft for Intelsat, which has relied on Ariane launch vehicles since 1983 to help build the world's largest fleet of commercial satellites. Intelsat 11 will host Latin America's premiere video programmers and the region's largest DTH platform.
