

The tempo of success

Arianespace delivers on its Service & Solutions promise of launching any payload, to any orbit... anytime.

During the first five months of 2007, our heavy-lift Ariane 5s orbited four primary telecommunications spacecraft, while the medium-lift Soyuz carried a cluster of four payloads to augment a satellite constellation. In this same period, we added six new contracts to the strongest order book in the commercial launch services sector. Arianespace's unmatched tempo is ready to serve the needs of satellite operators, spacecraft manufacturers, space agencies and other customers worldwide.

The logo features a blue sphere with a white orbital path and a grey arrow pointing clockwise, positioned behind the word "arianespace" in a white, lowercase, sans-serif font.
