

# The tempo of success

Ariane 5's launch on August 14 delivered a payload mass of more than 8,840 kg.

ORANGE

Arianespace's third Ariane 5 mission of 2007 accurately placed two new commercial telecommunications payloads into orbit. This heavy-lift flight lofted Hughes Network Systems' pioneering SPACEWAY™ 3 broadband relay spacecraft, along with the BSAT-3a direct broadcast satellite for Japan's B-SAT Corporation.
