

The tempo of success

The Star One C1 spacecraft arrives for Ariane 5's next launch

ARJUN

The fifth Ariane 5 mission of 2007 is set for liftoff on November 9, carrying another dual-satellite payload. Arianespace's workhorse launcher has lofted eight telecommunications satellites so far this year, delivering more than 29,000 kg. of payload mass into highly accurate geostationary transfer orbit.
