

The tempo of success

SPACEWAY 3 undergoes its pre-launch checkout at Europe's Spaceport for its upcoming Ariane 5 launch

SPACEWAY

Arianespace's next Ariane 5 flight will orbit Hughes' SPACEWAY™ 3, the world's first commercial satellite designed for onboard switching and broadband traffic routing. The exceptional lift capability of Ariane 5 allows such leading-edge spacecraft to be carried on Arianespace's responsive, flexible dual-payload missions.
