

# The tempo of success

The Ariane 5 mission on August 14 served two Arianespace customers: Mitsubishi Electric Corporation and the SES group

## C A D E N C E

Arianespace's highly successful August 14 launch was the ninth performed by an Ariane 5 in 12 months – demonstrating the reality of this workhorse vehicle's augmented flight rate. The latest dual-payload mission delivered two international Ku-band telecommunications satellites: Superbird-7 and AMC-21.
