

# The tempo of success

The Skynet 5C and Turksat 3A satellites are integrated on their heavy-lift Ariane 5 ECA

## C A D E N C E

Arianespace is living up to its unofficial motto: "Launches speak louder than words." The third of seven missions with Ariane 5 in 2008 is ready to orbit Skynet 5C and Turksat 3A from Europe's Spaceport. Another Ariane 5 is taking shape for our next flight, which also will carry two satellite passengers.
