

The tempo of success

As a successful and innovative company, ViaSat joins the growing list of global Arianespace customers

TRUST

Arianespace's 86th Service & Solutions contract in the United States is for the launch of ViaSat-1, which will deliver high-speed Internet access throughout North America. To be orbited in 2011 by Ariane 5, this powerful relay platform carries 56 Ka-band transponders for broadband Internet media services at the service of consumers and businesses.
