

The tempo of success

Eutelsat's HOT BIRD™ 9 satellite is fueled at the Spaceport for Ariane 5's next launch

PERFORMANCE

The unmatched capability of Arianespace's Ariane 5 has delivered nearly 50,000 kilograms to orbit during the heavy-lift launcher's five missions performed so far in 2008. Our upcoming flight for Eutelsat will launch two more satellites weighing a combined 8,300 kilograms.
