

The tempo of success

The first of Arianespace's newly-ordered Soyuz vehicles will be launched in the second half of 2009

COMMITMENT

This month's procurement contract for 10 more Soyuz launchers is another sign of our investment in launch capacity – guaranteeing continuity for Arianespace's high-quality Service & Solutions offer. By operating our industry-leading family of launchers, we plan to conduct an average of 10 missions annually with Ariane 5, Soyuz and Vega.
