Tempo of Success

The initial Ariane 5 of 2009 is delivered to Arianespace for integration of its HOT BIRD™ 10 and NSS-9 satellite passengers

CADENCE

Arianespace will perform up to eight Ariane 5 missions in 2009, continuing the sustained flight rate to meet our international customers' space lift needs. The year's first launch will carry payloads for two long-time Arianespace customers: Eutelsat and SES.
