Tempo of Success

Ariane 5 and the Automated Transfer Vehicle were presented as a proven ISS cargo resupply solution to the Review of U.S. Human Space Flight Plans Committee

PROVEN

Ariane 5 is ready to support the future of human space exploration – including cargo resupply flights for the International Space Station, along with missions to the Moon and Mars. As a proven heavy-lift vehicle, Ariane 5 offers the advantages of reliable, highly capable launch services through global cooperation.
