

Tempo of Success

The sixth Ariane 5 to be launched in 2009 is transferred for the integration of NSS-12 and THOR 6

# READY

Ariane 5 is confirming its reputation as the world's workhorse heavy-lift launch vehicle, with seven missions planned this year. Arianespace's sixth flight in 2009 is now being readied to orbit a dual-satellite payload of SES WORLD SKIES' NSS-12 and THOR 6 for Telenor Satellite Broadcasting.
