

Tempo of Success

Arianespace Chairman & CEO Jean-Yves Le Gall presents an Ariane 5 model to Dave Thompson, Orbital's Chairman and CEO, for display at the company's U.S. headquarters

STAR POWER

Orbital Sciences has relied on Arianespace to launch 16 of its STAR™ family spacecraft, including NSS-9 and Optus D3 in 2009. We are proud to contribute to Orbital's success as a world leader in small geosynchronous telecommunication satellites.
