

## 30 Years of Success

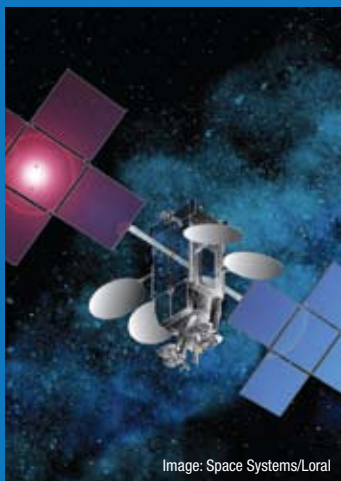

Image: Space Systems/Loral

Weighing approximately 6,100 kg. at liftoff, Jupiter will deliver HughesNet® broadband satellite services in North America

# CONFIDENCE

Hughes Network Systems Chairman & CEO Pradman Kaul says it best: "Arianespace has won our confidence again to launch a Hughes satellite." The company's powerful Jupiter™ broadband platform is now booked for an Ariane 5 mission in 2012.
