## 30 Years of Success

Weighing 5,800 kg. at liftoff, Intelsat-20 is to be orbited by Arianespace in 2012

## PARTNERSHIP

Arianespace's nearly 30-year relationship with Intelsat will continue with our selection to launch Intelsat-20 on Ariane 5. This high-power platform will enable the world's leading international satellite operator to expand its global video, voice and data coverage in the C- and Ku-bands.
