

## 30 Years of Success

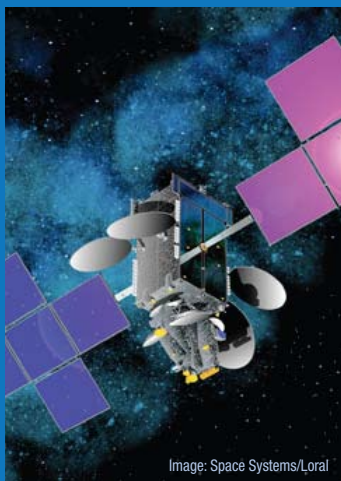

Image: Space Systems/Loral

With a liftoff mass of nearly 5,800 kg., Intelsat 17 will provide higher-performing capacity across Europe, the Middle East, Russia and Asia

## RELATIONSHIP

Intelsat's long-term partnership with Arianespace has been extended with the new contract to orbit Intelsat-17 on an Ariane 5 later this year. It is the latest satellite entrusted to us by this world-leading provider of communications services.
