

## 30 Years of Success

The Arabsat-5A and COMS satellites were launched by Ariane 5 on June 26

# STEADFAST

Ariane 5's latest on-target mission carried the seventh communications satellite orbited by Arianespace for Arabsat, along with a new multi-mission payload for the Republic of Korea. This brings the total number of spacecraft we have successfully launched to 281 over the past 30 years.
