Tempo of Success

W3B will have a liftoff mass of 5.4 metric tons when orbited by Ariane 5

CONNECTED

Eutelsat's W3B satellite has arrived at the Spaceport for the next dual-payload Ariane 5 mission. From its location at 16 degrees East, W3B will provide enhanced capacity for video broadcasting in Europe and Indian Ocean islands, and will also open a new mission for data and Internet communications in Africa.
